PROFESSIONAL SUMMARY

Full-stack software developer and technical program leader with 2+ years of experience designing and implementing production-grade web applications, coordinating hackathons, and teaching software engineering. Specialized in React, Node.js, and relational databases (PostgreSQL/SQL), with a strong focus on clean architecture, real-time client-server communication, payment gateway integrations, and AI-assisted workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL (PostgreSQL, MySQL), HTML5, CSS3

Frontend: React, Next.js, Redux, TailwindCSS, Browser APIs (Web Workers, Geolocation, Camera)

Backend & Database: Node.js, Express.js, REST APIs, Supabase (Auth, Realtime, S3), Neon, Drizzle ORM

Developer Tools: Git, GitHub, Vercel, Google Cloud APIs, Cursor, Claude Code, Arduino IDE

Project Management: Notion, Trello, ClickUp, Slack, Clockify, Asana

PROFESSIONAL EXPERIENCE

BeneathAtree

Jan 2024 – Present

Product Developer & Administrative Assistant

- Engineered internal software and custom automation tools, including a React/Express reimbursement system, reducing processing overhead.
- Organized, facilitated, and mentored 20+ hackathons and hands-on workshops, guiding over 1,000 students in prototype construction and software development.
- Designed comprehensive STEM curricula and project-based coursework focusing on physical computing (Arduino IDE) and full-stack web applications.
- Conducted technical learning and coaching sessions for employees covering JavaScript, React, Node.js, and AI-assisted development tools (Cursor, Claude Code).
- Collaborated directly with senior leadership to draft project proposals, manage client archives, design exhibitions, and optimize cross-functional operations.

National Green Hackathon

Feb 2023

Hackathon Mentor

- Mentored the Karnataka state team, providing guidance in system architecture, software integration, and science-based physical prototype building.

Freelance Media & Document Editing

May 2022 – Aug 2022

Freelance Document & Video Editor

- Edited layout assets and visual content for educational videos and PDF documents utilized as study materials for K-10 students.

EDUCATION

New Horizon College of Engineering

2024 – Present

Bachelor of Engineering in Data Science & Engineering

Current CGPA: **8.19 / 10**

Government Polytechnic Immadihalli, Bangalore

2021 – 2024

Diploma in Computer Science & Engineering

Graduated with a CGPA of **9.27 / 10**

FEATURED PROJECTS

Mentorship Checkout

www.sagarthalavar.in/

React, Node.js, Razorpay API

- Integrated Razorpay Payment Gateway to manage booking transactions; designed pricing calculators and implemented backend webhook handlers with signature verification for secure orders.

Guestbook Platform

www.sagarthalavar.in/guestbook

React, Supabase, PostgreSQL, GitHub OAuth

- Implemented OAuth 2.0 authentication and real-time database synchronization via Supabase Realtime; integrated browser Camera APIs to capture visitor selfies, and created an admin moderation interface.

Files Operations

files.sagarthalavar.in

React, PDF.js, PDF-lib, Web Workers

- Built a browser-native file utility supporting local PDF split, merge, and digital signature capabilities; leveraged background Web Workers to execute heavy compression and rendering threads to maintain a responsive UI.

Data Operations (DataOps Zeta)

data.sagarthalavar.in

React, Node.js, SQL, D3.js

- Constructed an interactive SQL playground and schema visualization engine that parses DDL statements to render real-time interactive database relationship diagrams.

Geolocation Treasure Hunt

treasure.sagarthalavar.in

React, Geolocation API, Leaflet

- Developed a location-based scavenger game utilizing the HTML5 Geolocation API and Haversine formula to compute distance to targets; implemented real-time leaderboard rankings and GPS-based verification.

Mouse Pointer Practicing Game

click.sagarthalavar.in

React, HTML5 Canvas / DOM APIs

- Developed a browser-native training game to assess and improve mouse coordination, target click speed, and accuracy, rendering targets dynamically and capturing click metrics.

CERTIFICATIONS

- **MongoDB AI & Innovation:** Building AI Agents, Building RAG Applications, and Vector Search.
- **SAP Certified Associate:** SAP Business One (Global Certification).
- **NPTEL IIT Kharagpur:** Internet of Things (IoT) Online Certification.
- **SAP Badges:** Introducing AI Fundamentals.
- **Infosys Springboard:** Introduction to Cyber Security.
- **IEEE NHCE Student Branch:** VibeThon.

GITHUB & PORTFOLIO HIGHLIGHTS

- **Consistent Development:** 676+ contributions with a 66-day consecutive daily streak (Jun 1 – Aug 5, 2026) across 30+ public repositories.
- **Full-Stack Focus:** Developed and deployed 9+ production portfolio applications demonstrating database integration, custom authentication, web APIs, and payment systems.
